Igneous Rocks: Assignment

Directions: Write a scientific description of the process in which igneous rocks form using a descriptive style similar to that of David Attenborough.

You must:

- Present all scientific information (use today's notes/discussion)
- Use new vocabulary
- Be creative

A large, rounded rectangular box with a thick black border, containing 20 horizontal lines for writing. The lines are evenly spaced and extend across the width of the box, providing a designated area for the student's scientific description.
